PROJECTS

BKK Traffic Insight

Python · Flask · MySQL · Pandas · Chart.js | GitHub repository · Live demo

- Built a dashboard to explore Bangkok traffic survey data by date, location, and observed time period.
- Cleaned and validated spreadsheet survey data before importing it into MySQL.
- Added Chart.js visualizations, traffic summaries, and location comparisons with clear data-coverage limitations.

Expense Tracker

Python · Flask · MySQL · Chart.js | GitHub repository · Live demo

- Built a web application with Flask and MySQL to record income and expenses.
- Used Chart.js to turn financial records into visual summaries.

EXMELLO

Next.js · React · TypeScript · Tailwind CSS · FastAPI · PostgreSQL | GitHub · Live demo

- Built an exam-season wellness companion with mood check-ins, rule-based recommendations, focus timers, and guided breathing.
- Integrated FastAPI and PostgreSQL for account-based check-ins and focus sessions; guest history stays in the browser.
