Available: June-July 2027 (2 months)

PROFILE

Digital Science and Technology student at Mahidol University seeking a Data & Software internship. Interested in applying Python, SQL, data visualization, and web technologies to practical problems, with personal projects in traffic analytics, geospatial analysis, and full-stack web development.

TECHNICAL SKILLS

Programming: Python, Java, TypeScript

Frontend: HTML, CSS, JavaScript, Next.js, React, Tailwind CSS

Backend & database: Flask, FastAPI, Node.js, MySQL, PostgreSQL, SQL, ER Modelling

Data & visualization: Pandas, Chart.js, Leaflet.js, Data Analysis, Data Visualization, Data Cleaning, ETL / Data Pipeline, Exploratory Data Analysis

Tools: Git, GitHub, VS Code

Geospatial: GeoPandas, PostGIS, MapLibre

Database design: ER/EER Modelling, Relational Schema, Normalization (3NF)

PERSONAL PROJECTS

BKK Traffic Insight

Python · Flask · MySQL · Pandas · Chart.js · Data Analysis · Data Visualization | Live demo · GitHub

- Built a dashboard to explore Bangkok traffic survey data by date, location, and observed time period.
- Cleaned and validated spreadsheet data for MySQL; added charts and comparisons with documented coverage limitations.

BKK Geospatial Intelligence

Python · GeoPandas · PostgreSQL · PostGIS · FastAPI · React · TypeScript · MapLibre | Live demo · GitHub

- Connected public datasets for Bangkok's 50 districts through a Python geospatial ETL pipeline and PostgreSQL/PostGIS.
- Built interactive choropleth maps, district comparisons, metric filters, CSV exports, and shareable views with documented data sources.

Expense Tracker

Python · Flask · MySQL · Chart.js | Live demo · GitHub

- Built a Flask and MySQL application to record income and expenses, with Chart.js visual summaries.

EXMELLO

Next.js · React · TypeScript · Tailwind CSS · FastAPI · PostgreSQL | Live demo · GitHub

- Built mood check-ins, rule-based recommendations, focus timers, and guided breathing for exam-season study support.
- Integrated FastAPI and PostgreSQL for account-based history; guest history stays in the browser.

TEAM PROJECTS

CondoFlow

React · TypeScript · Vite · Tailwind CSS · Recharts · Local Storage | GitHub

- Team frontend prototype for ITDS262 Software Engineering Lab, covering condominium units, leases, billing, maintenance, and parcels.
- Role: Frontend Engineer & UI Architect. Worked on component architecture, responsive mobile experience, and a maintenance Kanban board. Demo workflows use local browser storage.

STARBUCKS DB SYSTEM

Database Design · ER/EER Modelling · Relational Schema · Normalization (3NF) · Business Rules · Data Dictionary | GitHub

- Team database design project for ITDS221 covering beverage ordering, inventory, and Rewards membership workflows.
- Project deliverables include Chen ER/EER diagrams, a relational schema, 3NF normalization, and a data dictionary.

EDUCATION

Mahidol University · 2025-Present

Bachelor of Science in Digital Science and Technology
Faculty of Information and Communication Technology
GPA 3.08

Uttaradit School · 2022-2024

High School

EXPERIENCE & ACTIVITIES

MUICT Open House - Deputy Head of Guest Relations · Mahidol University | 2026

Welcome Freshy - Activity Staff · Mahidol University | 2026

Raknong G8 - Operations & Supply Support Staff · Mahidol University | 2026

LANGUAGES

Thai: Native · English: Intermediate
